## From the Rector

Dear Parishioners and Friends,

After a rather long Winter I am sure most of us are looking forward to the brighter, warmer days of Summer. I do hope you have time to relax and have a good holiday.

I read a very interesting article recently and it could be a valuable exercise for each of us to have a little think about the bones of this article. It was about success which demands persistence and there were six points.

- (1) You don't have to be great to start but you have to start to be great.
- (2) The first two letters in the word 'goal' are 'go'.
- (3) Some people dream about doing things, others wake up and actually do them.
- (4) People who brag about what they are going to do tomorrow probably did the same yesterday.
- (5) You'll never be what you ought to be until you're doing what you ought to be doing.
- (6) If you are having trouble thinking outside the box then it is probably time you got out of the box!

You may feel some of the points might not apply to your situation but at least it is good to take stock of our lives - what we do, why we do it, what way it affects us and others, is it for short term gain or pleasure, is it beneficial in the longer term?

The various important Parish activities are listed in PINS and I invite you to attend when possible. Please remember that your involvement is an encouragement to those who invest their time ensuring that weekly, monthly or annual programmes are in place to cater for every age group in the Parish.

With every good wish,

William
